Projects

Pinterest– Mini FullStack Implemenation   *View Live*

- Built a full-stack Pinterest-style platform with Node.js, Express.js, and MongoDB, implementing user authentication using Passport.js and handling content management and search functionality.
- Optimized database queries and improved UI responsiveness to enhance the user experience.
- Designed RESTful APIs for user registration, post viewing, and board management, with image storage managed through Cloudinary and server-side rendering using EJS.

VideoTube– A robust backend for a YouTube & twitter like platform   *View Source Code*

- Engineered a scalable backend using Express.js and MongoDb, implementing users authentication, content management (videos, comments, tweets), and social interactions (likes) with optimized RESTful APIs for high-volume CRUD operations.
- Designed and integrated a dashboard controller to track user activities and engagements, offering insights for platform growth and user retention.
- Focused on efficient data handling and performance optimization to support platform scalability.

GetMeAChai – Fund your Projects with A chai   *View Live*

- Developed a crowdfunding platform for developers, creators, and influencers with a responsive interface using Next.js and Tailwind CSS, supporting 250+ active users.
- Integrated Razorpay for secure payment processing, ensuring smooth transactions.
- Emphasized on delivering an efficient and seamless user experience across devices.

Other Projects..

Work Experience

- **Freelancing** | TalentBuzzz | *Talentbuzzz.in*
  - Engineered Talentbuzzz, a talent hiring platform using React.js, with smooth animations powered by GSAP and Lenis for an interactive experience.
  - Integrated Google Forms for direct data submission, streamlining the hiring process and improving communication between users and artists.
  - Prioritized engaging interfaces and platform usability for an enhanced user experience.
- **Freelancing** | Professional Portfolio | *vrinda-portfolio.vercel.app*
  - Prepared a professional portfolio website for a UI/UX designer, showcasing projects, skills, and design expertise to attract potential clients and enhance online presence.
  - Utilized React.js and Tailwind CSS to create a modern, responsive platform with interactive, visually appealing animations.
  - Focused on elevating user engagement and effectively highlighting the designer's creative work.
- **Freelancing** | Jewills.com | *Jewills.com*
  - Developed an e-commerce platform for a jewelry store with secure payment processing using PhonePay Payment Gateway, subcategory browsing, order tracking, and home delivery.
  - Reduced load times by 40% to improve site performance and ensure faster navigation.
  - Enhanced accessibility to provide a seamless shopping experience for all users.
