Projects

Pinterest– Mini FullStack Implemenation   *View Live*

- Built a full-stack Pinterest-style platform with Node.js, Express.js, and MongoDB, implementing user authentication via Passport.js and features for content management and advanced search capabilities.
- Designed RESTful APIs for user registration, post viewing, and board management, using Cloudinary for image storage and EJS for server-side rendering, while optimizing database queries and UI responsiveness for enhanced user engagement.

VideoTube– A robust backend for a YouTube & twitter like platform   *View Source Code*

- Engineered a robust and scalable backend using Express.JS and MongoDb, establishing user authentication, content management (videos, comments, tweets), and social interactions (likes) with optimized RESTful APIs for high-volume CRUD operations.
- Designed and integrated a comprehensive dashboard controller to track user activities and engagements, providing valuable insights for platform growth and user retention strategies.

GetMeAChai – Fund your Projects with A chai   *View Live*

- Developed a crowdfunding platform for developers, creators, and influencers, featuring a responsive user interface with Next.js and Tailwind CSS, currently supporting 250+ active users.
- Integrated Razorpay for secure payment processing, providing a seamless user experience and efficient transactions..

Other Projects..

Work Experience

- **Freelancing** | TalentBuzzz | *Talentbuzzz.in*
  - Engineered **Talentbuzzz**, a talent hiring platform utilizing **React.js**, which enhanced user experience through engaging interfaces and smooth animations using libraries such as **GSAP** and **Lenis**.
  - Implemented integration with **Google Forms** for direct data submission, streamlining the hiring process and improving communication efficiency between users and artists.
- **Freelancing** | Professional Portfolio | *vrinda-portfolio.vercel.app*
  - Prepared a professional portfolio website for a **UI/UX designer**, tailored to effectively showcase their projects, skills, and design expertise, aimed at attracting potential clients and enhancing their online presence.
  - Utilized **React.js** and **Tailwind CSS** to build a highly interactive, modern, and responsive platform, incorporating visually appealing animated designs that elevate user engagement and highlight the designer's creative work.
- **Freelancing** | Jewills.com | *Jewills.com*
  - Developed an e-commerce platform for a jewelry store, incorporating secure payment processing via **PhonePay** Payment Gateway, subcategory browsing for men's and women's jewelry, order placed tracking, and home delivery.
  - Later, Improved site performance by reducing load times by **40%**, ensuring accessibility for all users and enhancing the overall shopping experience.
